The photograph used as the background here is an image that Tracey took from the Lower Office window as she began her day, early one morning; perhaps this might give us a glimpse of what she saw in the world.

For those of you who don't know Tracey, she was a long time staff member, parent and character at the school, who put in an enormous amount of energy, time and aroha in an era of continued working bee's, fundraising drives, sports coaching and guidance counselling.
